SUMMARY

Over a career spanning 25 years in the film industry I think I have filmed just about every scenario;

Stunts and fights, dance sequences, crane shots, cranes on tracking vehicles, pack shots from 1 hand artiste to over 300 back ground artistes, helicopters and speed boats, racing cars, an Elephant to an action spider, special FX, blue green red and black screen with motion control mix and overlay with matching plates, babies, kids, adults and grumpy artistes all in a fun days work.
